At UNC, the concept of diversity encompasses acceptance and respect. It means understanding that each individual is unique, and recognizing our individual differences. These can be along the dimensions of race, ethnicity, gender, sexual orientation, socio-economic status, age, physical abilities, religious beliefs, political beliefs, or other ideologies. It is the exploration of these differences in a safe, positive, and nurturing environment that we want to facilitate for all of us.

**Mission:**

The University of Northern Colorado embraces the diversity embodied within individual and group differences. Each member of the University is responsible for valuing and **supporting interactions** among diverse populations, thus creating a rich and inclusive community of learners. We are committed to fostering an environment where diversity is affirmed and **vigorously pursued**. As such, we will strive to recruit and retain a diverse administration, staff, faculty, and student body by providing a campus climate that is welcoming and free of discrimination. Values We are dedicated to creating a welcoming and inclusive learning community where diversity of thought and culture is respected, intellectual freedom is preserved, and equal opportunity is afforded to every University community member. We will do so by engaging the community in thinking about diversity in its broadest sense as part of all that we do; by facilitating campus dialogue on diversity, equity, and climate issues; by helping UNC develop and initiate institutional strategies for achieving greater diversity of students, faculty and staff; and by promoting University community members' engagement in Greeley and beyond.
