

Title: IT Program Management Office (PMO) Unit Manager Date Printed: 09/24/2018

Job Posted On: 09/11/2018

Posting Expiration Date: 10/10/2018

Work Location: Los Angeles, California,

Description

The Metropolitan Water District of Southern California is a consortium of 26 cities and water districts that provides drinking water to nearly 19 million people in Southern California. Metropolitan's mission is to provide its service area with adequate and reliable supplies of high quality water to meet current and future needs in an environmentally and economically responsible way. Metropolitan's facilities include the 242-mile Colorado River Aqueduct, five water treatment plants with a combined capacity of 2.6 billion gallons per day, nine surface water reservoirs, 800 miles of pipeline, and 16 hydroelectric power plants.

The Metropolitan Water District of Southern California has an opening for a Information Technology (IT) Program Management Office (PMO) Unit Manager at its Headquarters in Los Angeles, California.

The Information Technology (IT) Program Management Office (PMO) Unit Manager reports to the IT Group Manager and is responsible for the overall governance and project management of the IT program and project portfolio. Leading a team of program and project managers, the IT PMO Unit Manager is responsible for implementing PMO processes, policies, and methodologies, and managing the overall execution of active programs and projects to ensure that they meet organizational goals and requirements, and to ensure consistency of delivery across the portfolio. Manage portfolio of all IT projects including Business Systems, Engineering Systems and Operational Technology (OT) projects in support of all Departments and functions within Metropolitan. Communication between project managers and the Business and IT sponsors who make the strategic decisions for those projects, and is responsible for building trusted partner relationships with business executives and sponsors.

JOB DUTIES

1. Develops and maintains the Program Office functions, roles and responsibilities and related procedures to maintain an effective portfolio of IT and OT programs and projects.
2. Forecasts and plans IT and OT projects, monitors technology development, establishes program

management policies, procedures, and standards; and ensures effective application of project management principles, methodologies, tools, artifacts and standards to IT and OT projects.

3. Develops and manages the IT Group Capital Project Portfolio.
4. Develops and manages the portfolio of all technology projects including design, upgrades, and implementation of technologies that directly support Business Systems, Engineering Systems and core Water Systems operations including real time control of treatment plants and the distribution system.
5. Creates methods to track project performance and is able to compare against goal benchmarks.
6. Ensures that programs and projects are being executed in accordance with established business objectives adhering to timelines and budget.
7. Trains and mentors project managers; provides guidance and feedback regarding performance on an ongoing basis.
8. Provides clear communication of project stats and numerical data related to percentage of goal completion.
9. Leads and participates in meetings to coordinate work and manage resource concerns.
10. Anticipates potential project roadblocks and identifies alternatives in an independent and efficient manner.
11. Produces consolidated portfolio performance metrics to the IT Group Manager and Metropolitan business executives.
12. Develops trusted partner relationships with business customers.
13. Ensures resolution of technical and service related issues by being actively engaged in projects.
14. Ability to direct and follow an appropriate escalation path for issue resolution.
15. Oversees and participates in the development and administration of the annual budget; participates in the forecast of funds needed for staffing, equipment, materials, and supplies; monitors and approves expenditures; implements adjustments; authorizes purchases; and evaluates and approves bids for consultants and service contracts.
16. Selects and assigns staff ensuring compliance with all hiring and promotion policies and procedures; responds to employee grievances and concerns; coaches and mentors employees; prepares, reviews, and approves performance evaluations; identifies employee development and training requirements; and develops staff recognition programs.
