00018319

Job Posted On: 01/11/2018

Posting Expiration Date: 02/11/2018

Work Location: Carlsbad, New Mexico,

Description

Occidental Petroleum Corporation is an international oil and gas exploration and production company with a subsidiary (OxyChem) that is a major North American chemical manufacturer. As one of the largest oil and gas companies in the U.S., we continually strive to be one of the best in the business. Our greatest asset has been, and will continue to be, our people.

We are looking for an experienced and motivated individual to fill the position Production Technician within our Permian Resources New Mexico Delaware Basin group based in Carlsbad, New Mexico. This position is responsible for oil and gas well operations, well testing, operating and maintaining field equipment and facilities, surveillance of general field operations and maintenance of various databases regarding production and operations. Non-scheduled call-outs outside normal business hours can be expected. Types of well include flowing, beam pump (with electronic pump-off controller), plunger lift, water injection and water disposal. Types of facilities include production tank batteries, flowlines, LACT (lease automatic custody transfer) facilities, water injection plants, natural gas compression, cathodic protection and metering devices (electronic gas measurement and others). Job is to be performed employing safe work practices while utilizing acceptable environmental procedures to maximize earnings while minimizing costs on assigned oil and gas producing properties. The work schedule is 8x6.
